## Vision

To provide quality education and encourage research activities for the social and economic uplift of the people of Malakand Division in particular and the country in general keeping in view the socio-cultural conditions and fostering high level of ethical and professional standards

## Mission

As a University, we diligently pursue truth and knowledge, inspired and guided by the teachings of Islam;

As a Community, we inspire others to follow those scholars who lead and organize their contemporaries responding to those who are in need;

As an institution of learning, we assist in the formation of competent, creative and socially responsible leaders through our commitment to excellence in discovery, learning and service;

As a catalyst of social transformation, we provide quality services that empower others to become agents of change.

## Core Values

### Search for Excellence

The highest standards of academic excellence and professionalism in service are the hallmarks of our educative endeavors. We regularly assess and transform our programs to make them effective for learning, discovery of knowledge and community service. Our service ethics manifests strong sense of responsibility, competency, efficiency, and professional conduct.

### Solidarity

Drawn together by a common vision and mission, we believe education is a shared responsibility and a collaborative effort where the gifts of persons are valued. Our learning community is a "family" where participation, teamwork, interdependence, communication, and dialogue prevail. A culture of appreciation builds up our community, encouraging us towards excellence and professionalism.

### Social Responsibility

Education at University of Malakand aims at developing a sense of social responsibility, which in turn leads us to empower the marginalized sectors of society through the creation of knowledge and human development. We are committed to work for the building of a society based on justice, peace, and respect for human dignity and the integrity of creation.

### Sustained Integral Development

Education is a lifelong quest whose primary purpose is the full and integral development of the human person. We are committed to provide programs for holistic development and continuous learning. Networking with other educational institutions, government agencies, industries, business, and other groups enhances our educational services.

## Foreword by Vice Chancellor

The significance of education has been the single most realization all over the world. At the dawn of the 21<sup>st</sup> century, it is only education, which has created difference among nations. Those nations who excel in education can have a say in the affairs of the world. It shapes not only individual personalities but has its bearing on the overall fabric of the society. The socio-economic and political uplift of a nation is in direct proportion to the level of its education. In order to secure a leading role in the emerging and applied fields of education and to compete with the world, we need to attain and maintain excellence in the field of education.

It is our duty to make our nation realize the value of education and to train them in such a way that they become responsible citizens. Such duty becomes all the more relevant when the society in which we live, has to travel a long way. With particular reference to Malakand Division, the University of Malakand has a lot to offer to the future generations. Such institutions are rarely erected in the history of nations and it is incumbent upon responsible nations to avail such opportunities.

The national regard for higher education is more closely equated with national welfare and individual prestige. In this regard, the scope of planning and proper monitoring system cannot be overlooked.

The Annual Report for the year 2007-2008 provides an insight into the performance and achievements made during the year. All out efforts have been made to maximize accuracy in the details stated in the report. However, there is no denying the fact that the University of Malakand, being in its nascent period, has to work on many areas to bring itself at par with other quality institutions.

Prof. Dr. M. Rasul Jan

## Executive Summary

The University of Malakand, a newly established institution in a comparatively underdeveloped part of the country is striving hard to come up to the expectations of the nation. Since its inception in 2001-2002, it has considerably improved in its own right.

During this period, it has not only established its reputation in the area but has also attracted people from different parts of the country. The University is fully aware of the educational needs of the nation in general and the people of Malakand Division in particular. After the establishment of Campus II in the beautiful valley of Sheringal, a new campus at Swat district is to be launched soon.

Initially, the University offered admissions in 4-Year BA / BS (Hons) program in only six departments. This number has now grown to 11 with the same number of new department in the pipeline. Sensing the dearth of educational institutions at all levels, constituent schools and colleges have been disseminating knowledge at primary, secondary and higher secondary level. They are successfully operating on both the campuses. Similarly, a 2-Year Masters program has been launched to accommodate and facilitate variety of students. In addition, all the degree and postgraduate colleges of Malakand Division both in public and in private sectors have been affiliated with the University while other private sector institutions are in the waiting to be affiliated.

In order to improve the qualifications and skills of the faculty, the University of Malakand currently benefits from the various scholarship schemes initiated by the HEC. As many as 31 faculty members are benefiting from HEC- Faculty Development Program and are pursuing their PhDs abroad.

The University's Central Library is passing through developmental phase. It was established in 2003-2004 with a stock of 575 books, which have now grown to 7440.

Driven by its core value of Social Responsibility, the University assists and facilitates poor students in their studies. Financial assistance is given to students and various sources are exploited in this connection.

The Directorate of Sports and Games, University of Malakand has been equipped with relevant facilities to organize and participate in sport events. Presently, it organizes Degree Level Sports both for male and female students. It also organizes and supervises sport events on the campus and represents the University in various sports events both on provincial and national levels.

The University believes in the constructive role played by students' societies by directing their energies in healthy activities. The relevant section has been reactivated and a model has been approved, which shall be in operation soon InshAllah.

## Introduction

University of Malakand (UOM), the dream- a prey to political polarization and “Inter-districts’ antagonism” since 1972; could not be materialized till 2001, when the concentrated efforts of the then Governor, N-W.F.P Lt. Gen(R) Syed Iftikhar Hussain Shah, bore fruit. Again it was he who gave the idea of establishing the university at the present site. After consultation with the PIDC high-ups, he formally announced the establishment of the university in August 2001.

After the announcement, some legal points were raised by the Provincial Law Department regarding establishing a university in the PATA (Provincially Administered Tribal Areas). The issue was resolved by the President of the Islamic Republic of Pakistan by allowing the UOM through a Presidential Order / Regulation. Hence, in a sense it is the only university in Pakistan chartered / established by the highest seat of power in the country. The Provincial government, through a Gazette Notification No P-III dated 27-10-2001 (Extraordinary) formally announced a university for Malakand Division in the premises of the defunct DFIC at Chakdara.

Since then it is expanding its range of activities and has brought into its fold not only the degree colleges of Malakand Division but has established new institutions to provide quality education to the students of all ages.

The establishment of the UOM has been an effort to revolutionize the area, benefiting the people of the province in general and those of Swat, Bunir, Shangla, Dir (Lower), Dir (Upper), Chitral, Malakand Agency and Bajawar Agency in particular.

In order to make the UOM a model institution in the country, the provincial government transferred nearly 65 Acres of land at Sheringal to the university, which includes rest houses, bungalows and halls etc. The campus is situated among the sky-kissing mountains in the beautiful valley of Sheringal on the bank of river Panjkora. It has a plain and vast area with orchards of apples, apricots and other seasonal fruit.

The area is a triangle connecting Kalam Kohistan of Swat district with Chitral and Dir district.

The University took a humble start with scant resources. In the first session, after its inauguration, a total of six departments were launched enrolling 173 students. In addition, about 16 faculty members were made available to serve in the University.

The UOM currently offers admissions in eleven teaching departments on Open Merit basis. The courses offered are 4-Year BA/BS (Hons) in Biotechnology, Botany, Computer Science, Economics, English, Forestry, Information Technology, Management Studies, Mathematics, Pharmacy, and Sociology. However, Graduate and Postgraduate programs are being launched in the current session.

All the teaching departments in the university have eclectically designed their respective curricula. However, guidelines of the HEC in this regard have been followed to bring the curricula at par with national and international standards.

Sheringal High Altitude Research Center (SHARC) has been established on Campus II on a piece of land, which is a natural bounty in terms of Flora and Fauna. It operates in the field of Medicinal plants and Biotechnology to preserve, propagate and utilize various precious and extinguishing plants species. Separate labs have been established including Phyto-Chemistry, Tissue Culture, Herbarium, Cold Room and Green House. It is worth mentioning that the collaboration of HEJ Laboratory Karachi, Hamdard Labs, Karachi and Qurshi Industries Lahore has been there ever since. Besides, fruit orchards are developed and experiments are conducted to improve the quality and quantity of fruits, vegetables and cereals. Moreover, wild timber is also being observed here. Workshops are being conducted to discuss biodiversity, medicinal plants on high altitude and to find market avenues for these valued plants.

In 2005, the university administration decided to launch the department of Forestry at Sheringal campus II. Presently, it offers admissions in 4-Year BS (Hons) program. It is the only department of its nature situated in a complete forest environment in the country.

In order to enrich the faculty and to create an atmosphere of research, the UOM has hired scholars from Egypt, Russia, and Philippines. Three of them have already joined the university. In an effort to facilitate them, a Foreign Faculty Hostel is in the final stages of its completion.

University of Malakand has its own library stocked with latest editions of leading and quality textbooks, reference books, national and international journals. In order to provide access to the scientific journals and e-libraries, the UOM, in collaboration with the HEC has launched a program entitled "Digital Library Program". It has enabled the faculty and students to have free access to

academic journals, scholarly publications and to utilize e-resources for knowledge gathering.

Dr. Atta Ur Rahman IT and Communication Center has been established to equip the students and faculty to face the challenges of modern world in the field of IT. It provides space for 30 computers. It also provides campus wide PABX facility.

The university has got 03 labs for Biotechnology, 03 for Pharmacy and 04 for Computer Sciences besides one Conference Room and a Digital Lab. The project of Computerization and Networking at the UOM aims at facilitating the students and faculty to have access to the world of Internet.

The University has Green House, Animal House and Fishpond. They fulfill the needs of science students. The fishpond is large enough that in future it can be used for large-scale production of fish for commercial purposes. Besides, they present an attractive site for visitors and add to the beauty of the campus.

The UOM has approved design for botanical garden, which will be utilized for maintaining the living plants' collection of different varieties and species including the ornamental, cultivated, wild and medicinal ones. It shall also serve as a center for documentation, research, reference, data storage education, conservation and several biological facilities.

For healthy mind and soul, Sports activities have always been indispensable part of life. The spirit of competition inculcated in the playground has its emblems in the academic activities. So far the UOM has developed playgrounds for Badminton, Basketball, Cricket, Football, Hockey and Volley Ball. The establishment of Sports Complex for both indoor and outdoor games is in the pipeline.

The University has a full-fledged Directorate of Sports and Games, established in 2003. It takes steps to organize and monitor both indoor and outdoor games. It organizes Intra-University Tournament, Degree-Level Sports and represents the UOM in Inter-University Games, Provincial Sports Gala and other such sports events. Besides, the students' societies aim at enabling the students to invest their energies in constructive activities.

The UOM is exceptionally fortunate to have engendered an opportunity to open constituent schools and colleges on both the campuses. In this regard, the response of the people of the respective areas has been prompt and positive. There is University Public School in the vicinity of the main campus while the

adjacent University Girls College offers admissions in FA / FSc. Similarly, the UOM has also established University Public School and University Boys College at Sheringal campus II.

Currently the degree and postgraduate in the territorial jurisdiction of the UOM are affiliated with it. They offer admissions in BA / BSc / BBA / B.COM / MA / MSc / MED / MCOM. They were initially affiliated with the University of Peshawar.

The students from far-flung areas need to have well-furnished lodgings. The university has ensured that each student resides in a highly adjustable environment where he can properly invest his time in his studies and other hygienic activities. Initially, the former PIDC residential flats have been made into Boys' Hostels accommodating about 300 students. Besides, there is a separate Youth Hostel on the main campus, which is utilized for guest students visiting the UOM from across the country. While girls have been accommodated in seven bungalows in the Professors' Colony declaring each as a Girls' Hostel. However, new hostels are in the final stages of completion to meet the increasing demand for accommodation.

The already existing Officers' Colony of the PIDC has been renovated as Professors' Colony while a well-furnished Staff Hostel meets the needs of the faculty members.

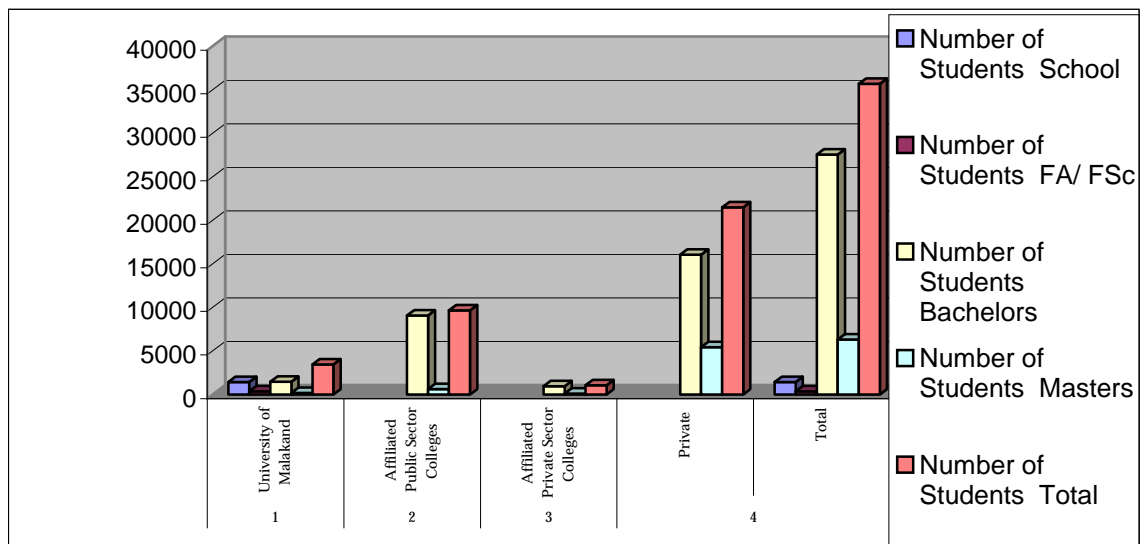

## Enrollment

### Overall Enrollment

The University of Malakand caters to a variety of students. It provides education from Primary to Masters Level. It also provides opportunity to private students. The overall enrollment of the university during the year is summarized as under:

No	Description	Number of Students						Total
		School	FA/ FSc	Bachelors	Masters	M.Phil	PhD	
1	University of Malakand	1430	370	1477	165	--	--	3442

## Staff Development

The University encourages and facilitates the faculty members to improve their qualifications. In this regard, the faculty members have been motivated to benefit from the relevant schemes for the purpose launched by the HEC. Presently, the following members have been availing foreign scholarships for Ph.D. under the HEC Faculty Development Program.

## University Teachers Research Publications

The faculty serving in the University of Malakand is encouraged to pursue research activities. It is believed that such activities have positive bearing upon their skills. In the year 2007-2008, some of the research papers published by the faculty are listed below:

### List of Research Publications

- Alam Zeb and I. Khan (2008). Composition and medicinal properties of Sea buckthorn juice, In: Sea Buckthorn- A Multipurpose Wonder Plant. Vol. III – Advances in Research & Development. H. Kallio, B. Yang, J. T. Morsel et al., (eds), Daya Publishing House, N. Delhi, India. ISBN: 81-7035-520-5
- Alam Zeb and I. Khan (2008). Pharmacological applications of Sea buckthorn (Hippophae), In: Advances in Phytotherapy Research. M. Eddouks (ed) Research Signpost, N. Delhi, India. ISBN: 978-81-308-0223-7
- S. A. Iskhaokov. On existence and smoothness of generalized solution to non-linear differential equation with degeneracy // Differential Equations, 2007, vol. 43, No.12, (14 pages)
- S. A. Iskhaokov. Existence and Uniqueness of solution for variational Dirichlet problems of degenerate differential equations // Mathematical Notes of the Yakut State University (Russia), 2007, vol. 14, No. 1. pp. 67-82.
- S. A. Iskhaokov, A.G. Karimov. Variational Dirichlet problem in a limitetube domain, generated by noncoercive bilinear form // Doklady of the Tajik Academy of Sciences, 2007, vol. 50, No.4, 76-83.

## Memoranda of Understanding (MoU)

Academic and Research Linkages and Memoranda of Understanding with institutions of local and international repute provide a valuable opportunity of qualitative improvement in diverse areas of mutual and relevant areas in congruence to the overall vision of the universities. University of Malakand has been actively involved in strengthening academic and research linkages as well as creating new ones with universities both national and international.

During the year under discussion, University of Malakand has developed new linkages with the following organizations / institutes of repute.

## Campus Consultancy Services Limited UK

The University of Malakand has signed an MoU with Campus Consultancy Services Limited UK, Headquartered at 323, Wokingham Road, Earley, Reading, Berkshire, RG6 7EB, England, UK for providing consultancy Services to the University as listed below:

1. Placement of suitably qualified students in the leading and highly ranked UK Universities accredited by the British Government, represented by CCS in Pakistan. Such Universities include York, Southampton, Surrey, Brunel, Leeds, Queen Mary University of London, Leicester, Essex, Glasgow, Strathclyde, Liverpool, Exeter, Hull, Cardiff etc.
2. Obtain in principle an assessment of suitability and offer of a place in the chosen subject area, prior to submission of formal application
3. Negotiate with the UK Universities bursary, fee discounts and other special concessions
4. Assist with student visa processing
5. Pre-departure briefing in Pakistan

6. Post arrival assistance in the UK
7. Regular liaison with students and their supervisors during the studies in the UK to monitor academic progress. This is to help with early detection of any issues that may arise and their prompt resolution.
8. Facilitate the visit of the Vice Chancellor, Registrar and other senior officers of the University to visit the UK and meet with their counterparts for the evaluation of the progress and resolve any outstanding issues
9. Any other service required by the University of Malakand for the implementation of the Human Resource Development but not listed above

All the above services will be offered to the University of Malakand free of charge.

### University of Balochistan

The University of Malakand and the University of Balochistan signed a MoU for a period of five years, recognizing the benefits to their respective institutions therein. Through this MoU, both the institutions agreed to develop collaborative activities in the academic areas of mutual interest, on the basis of equality and reciprocity. They agreed to:

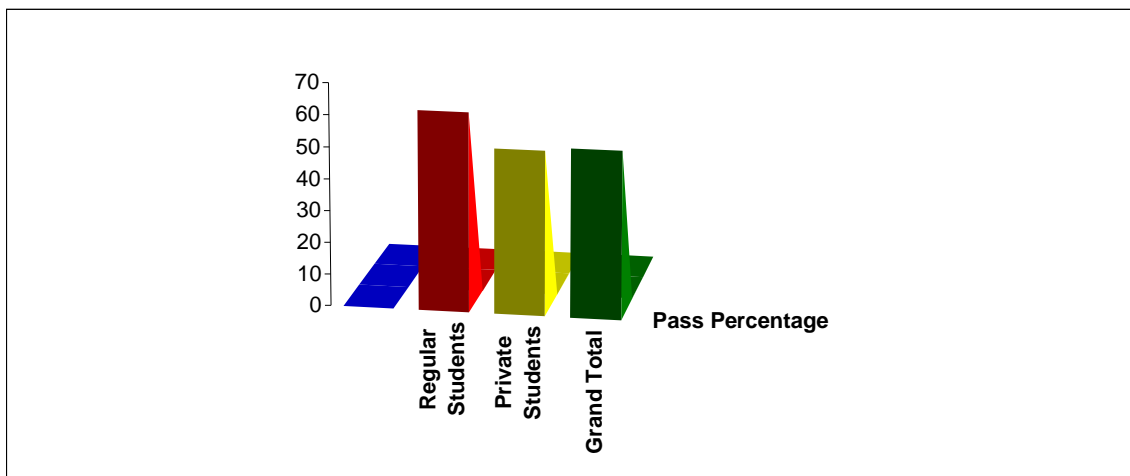

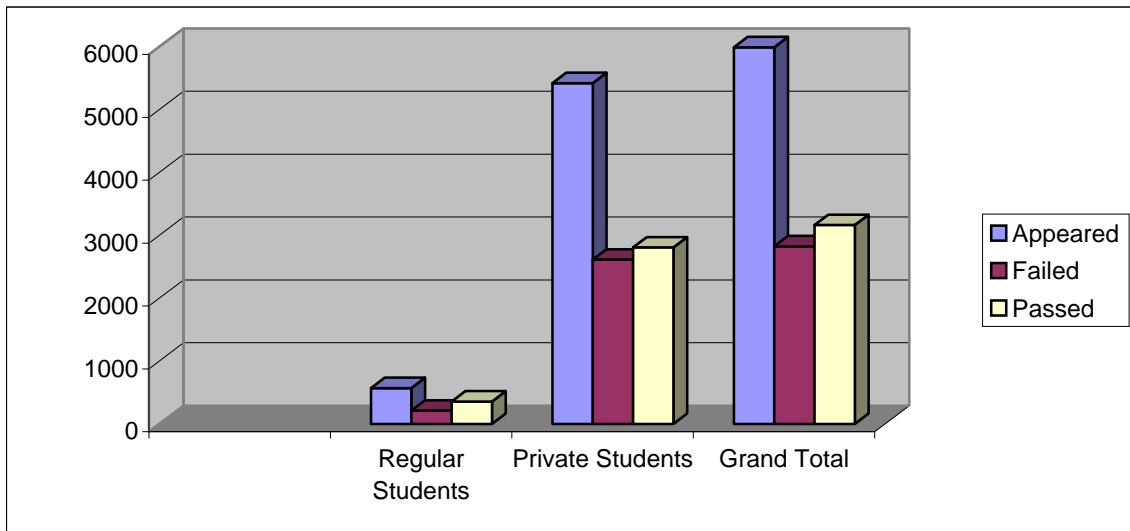

1. Exchange of information regarding their faculty members and administrative staff for mutual execution of any activity
2. Conducting collaborative research projects if comes under the ambit of both the institutions
3. Exchange of academic information and materials
4. Promoting collaboration in fields of mutual interest
5. Promoting other academic co-operation as mutually agreed
6. The University of Malakand shall provide assistance and support in the fields of Forestry, Medicinal Plants, Biotechnology and relevant fields
7. The University of Balochistan shall provide assistance and support in the fields of Vaccinology, Biotechnology, Bio Chemistry, Pharmacy, Geology and relevant fields

## Developmental Projects

The University of Malakand is in its earlier stages of development where concerted efforts are required to erect and establish physical and technological infrastructure. The process has been started and developmental activities are prioritized to meet the immediate demands. Under the umbrella of the HEC, developmental projects have been initiated. Although, they are in progress but some of the projects have started bearing fruit to the satisfaction of students and the faculty. Presently, the following developmental projects are in progress.

### Developmental Projects In Progress

No	Name of Project	Cost PKR (millions)
1.	Computerization & Networking Enhancement Program at University of Malakand	23.14
2.	Construction of Hostel for Visiting Faculty at University of Malakand	13.890
3.	Establishment of the Department of Forestry at University of Malakand Campus II, Sheringal	28.771
4.	Preservation and Research on High Valued Medicinal Plants at High Altitude Research Center, Sheringal Campus II	32.808
5.	Construction of Hostel for 200 Students at University of Malakand Chakdara	33.346
6.	Development of Malakand University Chakdara	494.373
7.	Establishment of Botanical Garden & Herbarium University of Malakand Campus I	38.316
8.	Construction of Hostel for Students at University of Malakand Campus II Sheringal	34.206
9.	Strengthening of Syed Iftikhar Hussain Shah Central Library at University of Malakand Chakdara	37.159

Table 18: Developmental Projects In Progress

## Details of Developmental Projects

1. Name of the Project: Computerization & Networking Enhancement Program at University of Malakand

Cost: Rs. 23.104 m

Objectives:

- To develop infrastructure of e-offices in the University of Malakand that includes local and wide area networks (LAN/WAN). The internet and intranet e-mail shall be used for inter office communication (necessary security, digital authentication and legal cover shall be provided to secure the validity of such communication)
- To provide online services through web portal would enable the affiliated colleges to register their students on line and along with that they can easily submit their queries regarding examination and can easily download various kinds of forms
- To construct a complete website of University of Malakand
- To provide an internal automation in the newly established University of Malakand
- To strengthen IT department of the university

Key Components:

S.No	Item	PC-1 Provision
1.	Equipment	15.704
2.	Software	2.500
3.	Staff requirement/Salary	2.280
4.	Furniture	1.310
5.	IT Training For Employees	0.500
6.	Consultancy/Installation Charges	0.310
7.	Contingencies	0.500
Total		23.104

Table 19: Key Components of Computerization & Networking Project

2. Name of the Project: Construction of Hostel for Visiting Faculty at University of Malakand
- Cost: Rs. 13.890 m
- Objectives:
- Provision of quality Hostel accommodation to 10 members of visiting faculty at University of Malakand
  - Provision of allied facilities i.e. external development, furniture & fixture, standby generator, networking etc.

Key Components:

S.No	Item	PC-1 Provision
1	Civil Works	8.630
2	External Services	0.850
3	Furniture & Fixture	1.950
4	Facilities (Generator & Networking)	1.700
5	Consultancy	0.260
6	Contingencies	0.500
Total		13.890

Table 20: Key Components of Visiting Faculty Hostel Construction Project

3. Name of the Project: Establishment of the Department of Forestry at University of Malakand Campus II, Sheringal
- Cost: Rs. 28.771m
- Objectives:
- Provision of infrastructure for research laboratories, Classrooms, Seminar rooms, stores, museum, green house, lighthouse and offices for proper running of the department
  - To provide equipments, glassware, chemicals, furniture, books, journals and field vehicles for the functioning of the department on scientific lines
  - To recruit faculty, supporting staff and security staff for smooth running of the department
  - To stop Deforestation and encourage forestation for development of better environment

- To improve problems of land degradation, soil erosions, sloping cultivation, land sliding, quarrying of stones, land tenure issues and proper management of forestry resources
- To preserve wildlife, birds and biological species of Ecosystem
- To expand the existing academic facilities of newly established University Of Malakand as an institution of higher learning
- To produce graduates and postgraduates of international standards in the fields of forestry
- To conduct quality field research for enhancing production of rangelands and expanding forests in mountains and plains

Key Components:

S.No	Item	PC-1 Provision
1	Infrastructure	7.782
2	Equipment	10.326
3	Chemical & Glassware	0.538
4	Furniture	1.161
5	Field Transport	4.300
6	Books/Journals	1.300
7	Faculty/Supporting Staff	2.364
8	Miscellaneous	1.000
Total		28.771

Table 21: Key Components of Establishment of Forestry Department  
Project

4. Name of the Project: Preservation and Research on High Valued Medicinal Plants at High Altitude Research Center, Sheringal Campus II

Cost: Rs. 32.808 m

Objectives:

- To start R&D activities in the field of medicinal plants

- To provide highly qualified HRD in the field of Medicinal Plants for pharmaceutical industries
- To uplift the Socio-economic condition of the local farmers through production of seed/saplings of value added medicinal plants
- The University will establish a linkage with national / Multi national pharmaceutical industries for the production of Medicinal Plants

Key Components:

S.No	Item	PC-1 Provision
1	Equipment	12.252
2	Green House	2.812
3	Cold Room	0.600
4	Chemicals	2.600
5	Books/Journals	3.000
6	Emergency Generator	1.000
7	Environmental Control	1.000
8	Furniture & Fixture	0.260
9	Manpower	7.650
10	Staff Training	0.434
11	Contingencies	1.200
Total		32.808

Table 22: Key Components of Research on HVM Plants Project

5. Name of the Project: Construction of Boys Hostel for 200 students at University of Malakand

Cost: Rs. 33.346 m

Objectives:

- Provision of Hostel facility for 200 students
- Provision of Furniture & Fixture
- Provision of Internet Facilities

Key Components:

S.No	Item	PC-1 Provision
1	Civil Works	30.436
2	Furniture & Fixture	1.296
3	Internet Facilities	--

4	Contingencies	--
Total		31.732

Table 23: Key Components of Construction of Boys Hostel Project

6. Name of the Project: Development of Malakand University, Chakdara  
 Cost: Rs. 494.373 m

Objectives:

- An academic block over a covered area 122808 Sq. ft will be constructed to accommodate 05 departments and 2500 students.
- A Girls hostel over a covered area 43750 Sq. ft will be constructed to accommodate 250 students.
- 40 scholars will be sent to technologically advanced countries for PhD in S&T.
- Three Departments will be equipped with latest equipments.

Key Components:

S.No	Item	PC-1 Provision
1	Faculty Development Program	240.000
2	Civil Work	182.558
3	Furniture + Fixture	8.658
4	Office Equipment	5.760
5	Transport Facility	16.000
6	Chemical & Glassware	7.000
7	Lab. Equipment	22.000
8	Books & Journals	7.000
9	Project Staff	1.897
10	Contingencies	3.500
Total		494.373

Table 24: Key Components of Development of Malakand University Project

7. Name of the Project: Establishment of botanical garden & Herbarium  
 University of Malakand Campus I

Cost: Rs. 38.316 m

Objectives:

- Procurement of Land (193 acres Land already provided free-of-cost by the NWFP Provincial Government), where as 15 acres is allocated to the present Project

- Construction of Herbarium for the permanent preservation and collection of plants from various ecological zones of NWFP and Northern areas, supplemented with a library facilities to enhance the Teaching and Research activities.
- To develop a Botanical Garden, depicting plant diversity; collection of endangered/ rare species; medicinal plants; native as well as exotic species
- The design and layout of plant collection and their careful interpretation for user groups would encourage the students of the Botany and Horticulture lovers to create and investigate new ways of arranging and displaying plants within collection, garden and landscape.
- Provision of Books & Journals in library
- Purchase of Vehicles

Key Components:

S.No	Item	PC-1 Provision
1	Civil Works	8.759
2	Garden Development	11.700
3	Equipment	6.277
4	Transport Facility	2.800
5	Books & Journals	1.920
6	Training & Staff	2.000
7	Project Staff	2.860
8	Material & Supply	1.200
9	Contingencies	0.800
Total		38.316

Table 25: Key Components of Botanical Garden Establishment project

8. Name of the Project: Construction of Hostel for Students at University of Malakand Campus II, Sheringal

Cost: Rs. 34.206 m

Objectives:

- Provision of residential facility to 100 students through construction of Hostel (Covered Area 15427 sq. ft.)
- Provision of Furniture and Fixture
- Provision of Computer Network Facilities to the Students

Key Components:

S.No	Item	PC-1 Provision
1	Civil Work	31.135
2	Furniture & Fixture	1.371
3	Internet Facilities	1.200
4	Contingency	0.500
Total		34.206

Table 26: Key Components of Boys Hostel Project at Sheringal Campus  
II

9. Name of the Project: Strengthening of Syed Iftikhar Hussain Shah Central Library University of Malakand Chakdara  
Cost: Rs. 37.159 m

Objectives:

- Improvement of library facility
- Providing suitable atmosphere for study / research
- Provision of library facility to the student through construction of new building (covered area 12000 sq. ft.)
- Provision of RFID System
- Provision of Furniture

Key Components:

S.No	Item	PC-1 Provision
1.	Civil Work	22.544
2.	Split AC System	1.500
3.	Furniture & Fixture	3.590
4.	RFID System	7.225

## Annual Report 2007-2008

5.	Emergency Generator	1.500
6.	Contingency	0.800
Total		37.159

## Co-Curricular Activities

### Sports Activities

The Directorate of Sports and Games, University of Malakand is actively pursuing its goal to promote physical education activities. In this regard, it organizes and participates in different events. Some of the major such activities are as follows:

### Meetings of UMSTC

The General and Executive body meetings of UMSTC were held on August 23, 2007. At both the meetings, the past performance of the committees was discussed and decisions were taken to organize the Degree-Level Sports Tournament for the year 2007-2008. In the meetings, it was decided to allow the University of Malakand to participate in the Degree-Level Sports Tournament.

### Inter Degree Colleges Tournament – Boys

The directorate organized the following Degree-Level Sports Tournament for affiliated colleges (boys).

Event	Winner	Runner-Up	Number of Participating Colleges
Table Tennis	UOM	Jehanzeb College	07
Badminton	UOM	GDC Daggar	11
Football	Jehanzeb College	GDC Thana	11
Basketball	GDC Dir (U)	UOM	06
Volleyball	GDC Daggar	GDC Gulabad	09
Hockey	GDC Timergara	UOM	06
Cricket	UOM	Jehanzeb College	14

Table 30: Inter Degree Colleges Tournament - Boys

### Inter Degree Colleges Tournament – Girls

The directorate organized the following Inter Degree Colleges Tournaments of girls of the affiliated colleges.

Event	Winner	Runner-Up	No. of Participating Colleges
Badminton	GGDC Thana	GGDC Saidu Sharif, Swat	04
Volley-Ball	GGDC Saidu Sharif, Swat	GGDC Thana	04
Table- Tennis	GGDC Thana	GGDC Saidu Sharif, Swat	04

Table 31: Inter Degree Colleges Tournament - Girls

## Participation in Inter Universities Tournaments

The University of Malakand regularly participates in the Inter-Universities Tournaments and performs well. However, the level of participation was disrupted this year due to the turbulent conditions in the area. This level is lower than the previous years.

Game	Organizing University	Round	Position	No. of Participating Universities
Football	Gomal University, D. I. Khan	Zonal Round	2 <sup>nd</sup>	08
Football	Agriculture University, Faisalabad	Final round	5 <sup>th</sup>	16

## Mega Events on the Campus in 2007 – 2008

### Seminar on Hepatitis

In order to increase awareness about Hepatitis, a seminar was organized by the department of Pharmacy in collaboration with Rehman Paramedical Institute, Batkhela on Nov 13, 2007. Students and faculty members attended it. The Vice Chancellor was the chief guest at the occasion while Dr. Rauf represented the Afnan Abdullah Awareness Society (AAAS).

The speakers highlighted the potential threat in the form of hepatitis and warned the participants about the urgent need of taking precautionary measures to avert the disease. It was termed to be no less than a Time bomb. A concern was shown over the increasing number of people falling prey to the disease particularly in N-W.F.P. The speakers also pointed to the various steps that need to be taken to combat the disease. On the same day, arrangements had been made for Blood Screening Laboratory with the assistance of Rehman Paramedical Institute to check blood samples for Hepatitis thread.

### Commencement of Classes in Masters Program

With the aim to fulfill its commitment to disseminate knowledge at all levels, the University of Malakand decided to embark upon yet another ambitious program of launching Two-Year Masters program in the evening. This step was taken mainly to facilitate the working and professional classes of the society. Classes have commenced from February 10, 2008 in the said program.

### Annual Day at the UPS Campus I

The Annual Day function was organized in the UPS Campus I at Chakdara on March 20, 2008. During the colorful ceremony, students participated in different activities and displayed their skills in public speaking, drama, one-man shows and national songs.

### Youth and Culture of Peace workshop

A two-day workshop (25-26 April, 2008) was organized by the department of Sociology in association with DOWSTY (Developmental Organization for Women Development) with the assistance of Youth and Culture Wing of CSC (Christian Study Center) Rawalpindi, which was represented by Mr. Tauqeer Chughtai at the occasion.

The speakers expressed their views on Peace Education and argued about education as a road to harmony. They also highlighted the role of religion in bringing peace. Besides, the role of youth was established and the problems they were faced with in their journey towards the culture of peace were discussed. The representative of CSC gave his comments over the workshop. He appreciated the organizers and the contribution made by the speakers and the students to make the workshop a success. On behalf of the CSC, he assured the organizers of full support in organizing such workshops in future. In the end, certificates and gifts were distributed among the speakers and the organizers.

### Governor N-W.F.P / Chancellor Visit to the University

His Excellency Governor N-W.F.P Engineer Owais Ahmad Ghani paid a visit to the University. On April 21, 2008, he visited Sheringal Campus II and laid the foundation stone of boys' hostel Block I, a project worth Rs. 34.206 million.

Accompanied by the Vice Chancellor and the faculty members, the Chancellor visited the various sections including the department of Forestry, High Altitude Research Center, botanical labs and Green House.

Later on, his Excellency governor N-W.F.P / Chancellor of the University of Malakand Engineer Owais Ahmed Ghani chaired a meeting in which the University staff and elders of the area participated.

On April 22, 2008, Engineer Owais Ahmed Ghani visited University of Malakand Campus I, Chakdara and was briefed about the various sections and departments operating on the campus. He visited computer labs, pharmacy labs and biotechnology labs.

Later on, the Chancellor addressed a joint gathering of faculty and staff members along with students at the Convocation Hall. In his address, he said, “The nation is confronted with enormous challenges and especially the youth must prepare themselves to shoulder enormous responsibilities”. He further added, “We have been facing challenges since our independence and on every occasion, we have emerged stronger as compared to the past”.

Finally, the Chancellor visited the Digital Library, where he was briefed about the functioning of the library and the way the University had been utilizing it for the promotion of research.

### **1<sup>st</sup> National Symposium on “Old Plants, New Remedies”**

A two- day symposium on “Old Plants, New Remedies” was organized by Department of Pharmacy, University of Malakand on 9<sup>th</sup> & 10<sup>th</sup> June 2008.

The symposium was organized with the objective to increase awareness about the importance of Medicinal Plants and Phytomedicine among the researchers and students.

Fifteen resource persons and other distinguished experts participated in the symposium including Prof. Dr. Mansoor Ahmad, Head of Pharmacognosy Department, University of Karachi, Prof. Dr. Tayyeb Ansari, Bahauddin Zakria University, Multan, Prof. Dr. Jehandar Shah, the plant Taxonomist and Ex-Vice Chancellor, University of Malakand, Dr. Noor Muhammad Shah, Deputy Director General Drugs (Health Department) and Chief Pharmacists of all Teaching Hospitals of the N-W.F.P.

The speakers highlighted the abundance of medicinal plants in the northern regions and stressed the researchers to come up with ambitious plans to explore them. They brought to the fore the vitality of such plants and termed them crucial to the country's economy. During the symposium, it was noted that more than 8,000 plants species in South Asia had medicinal values; out of which 2000 medicinal species exist in Pakistan. Stating further, more than 80% of the population of South Asia could afford the primary healthcare cost and they only rely on traditional uses of herbs even in the therapeutic antenatal and postnatal cases. In Pakistan, during 1999, bill on the import of medicinal plants was worth US\$ 31.0 millions whereas the export of medicinal plants could hardly reach US\$ 6.0 millions (EPB, 1999).

### **1<sup>st</sup> International Symposium on Biotechnology- Current Trends**

The first International Symposium on Biotechnology- Current Trends was organized by the department of Biotechnology, University of Malakand from July 01 to 03, 2008. Renowned scientists attended it from different institutions. Prominent among them included Dr. Haq Nawaz Bhatti, Dr. Anila Durrani, Dr. Masroor Ilahi Babar, Dr. Jasmin Shah, Mr. Khalid Yar Khan, Dr. Syed M. Jamal, Dr. Aqib Iqbal and Dr. Jehandar Shah.

During the symposium, the speakers highlighted the importance of Biotechnology and the challenges ahead.

The guest speakers appreciated the University of Malakand for organizing such event and extended their cooperation to the University for the promotion of the discipline.

### Future Plans

The University of Malakand has shouldered the responsibility of educating the generations to come. It has a vision to grow and to enlighten the future generations with the eternal values of education. It took a humble start and since then has grown with a considerable pace. However, at the same time, it is fully aware of the financial and culture constraints. The University is focused to cover the uncovered and in this regard, special attention is paid to strengthening of the faculty and the administration. Similarly, the University intends to establish full-fledged departments of Law, Journalism, Mass Communication, Chemistry, Physics, Geology, Environmental Sciences, Home Economics, Islamic Studies, Library Sciences, Archaeology, Behavioral Sciences, Feministic and Women Studies, Zoology, Urdu, Psychology, International Relations and Bio Informatics. In addition, the strengthening of Sheringal Campus II and the establishment of University of Malakand Campus III at Swat District are at the top of the agenda.
