Career Objective

Currently, I am working as a full time Lecturer at The University of Malakand. I have completed my studies at The University of Manchester and have worked as a Software Developer in the industry, gaining a closer technical and commercial experience in the field. During this period I have developed skills in delivering presentations and writing reports. I took special interest in E-Commerce Technologies, Entrepreneurial Commercialization of Knowledge and Database Technologies.

Education

2006 – 2007 University of Manchester
Advanced Computer Science, MSc
Class: 2:1

Modules included: Entrepreneurial Commercialization of Knowledge, E-Commerce Technologies, Computer Security, e-Science and Grid Computing, Knowledge Representation and Reasoning and Advanced Database Technologies.

Dissertation: Designed and developed A Web Service Interface to COPASI (a systems biology analysis tool) using Java, XML, Apache Tomcat and Taverna.

2001 – 2004 University of Peshawar, Pakistan
Computer Science, BS Hons
CGPA: 3.5/4.0

Modules included: Issues in Computing and Information Technology, Programming Languages (C/C++), Artificial Intelligence, Mathematics, Network Design and Strategies, Object Oriented Analysis and Design, Software Engineering, and Database Technologies.

Project: Developed a database application for a large pharmaceutical company using VB.Net and SQL Server.

1999 – 2000 SPS College Swat, Pakistan
HSSC: Ist Division

Subjects taken: English, Physics, Chemistry, Mathematics, Pak Studies and Islamiat.

Work Experience

Feb - 2010 **University of Malakand, Pakistan**

Lecturer

- Currently, working as a Lecturer at The University of Malakand, where I have been teaching E-Commerce Technologies, Software Engineering and Database Technologies.

Dec – Sep **Starlite Travel Centre, Manchester**
