University of Malakand**

Lesson Plan Format

Student Teacher ----- **Date:** -----

Grade: ----- **Subject:** ----- **Topic:** -----

1. Objectives: What I expect the students to learn from this lesson/ instruction?

2. Assessment of Students learning: What strategies will I use to find out how well the children are learning throughout the lesson? I will use the following assessment approaches and tools.

3. Data Collection: How will I gather evidence to indicate whether the children have met the objectives of the lesson/instruction? I will use the following process to gather the data.

4. Methodology: How will I guide the students towards the stated objectives?

a. Assessing previous knowledge: what prior knowledge, experiences, and interests of children can I use to connect them to the subject matter to be taught?

b. Learning Sequences and Pacing: Name each phase of the lesson. Describe the subject matter to be learnt and the activity planned, and indicate the time it will take the children to complete each phase.

5. Material Required: List all the material you will need for this lesson.
