1 Objective

I am interested particularly in **Mathematical Biology and Fluid Mechanics** such as mathematical model of heart and blood circulation in human body, population dynamics, epidemics dynamics and infectious diseases with optimal control, and ecological modeling. Moreover, I am highly appreciating any research activity in others area of applied mathematics. I believe that applied mathematics as tool-builders, therefore I would like to learn and use applied mathematics which applicable to a broad diversity of many research field and useful in daily life.

2 Personal

Father's Name:	Abbas Khan
Qualification:	Ph.D (Applied Mathematics)
Date of birth:	05-04-1973
Nationality:	Pakistani
Address:	Dir Timargara, Khyber Pakhtunkhwa,

3 Current Position

Assistant Professor & Chief Proctor
Department of Mathematics
University of Malakand Chakdara,
Khyber Pakhtunkhwa, Pakistan

4 Academics

Ph.D (Applied Mathematics)

Department of Mathematics, Pusan National University, Seoul Korea (2008)
Dissertation title “**Blood Flow of Oldroyd-B Type Fluids Induced by Brownian Force in a Vessel**”

M.Phil (M.S Mathematics)

Department of Mathematics, Konkuk University, Seoul Korea (2006)
Dissertation title “**Stability Analysis of Spruce Budworm Population and Optimal Control**”

M.Sc (Mathematics)

Department of Mathematics, Gomal University, Pakistan (1997)

B.Sc (Maths A, B and Physics)

University of Peshawar, Pakistan (1995)

5 Theoretical Knowledge

Numerical Analysis 1,2

Complex Analysis 1,2,3

Differential Equations

Algebra 1,2

Partial differential Equations

Bio-Mathematics

Real Analysis

Mathematical Method

Mathematical Modeling
Optimal Dynamics
Numerical Integration
Control Theory
Non Linear Analysis
Computational Mathematics

6 Computer Skills

MATLAB
Fortran77
LATEX
TEX
Microsoft Word processing
Graphics (Power Point)
Data bases (BIDS and internet sites)
Well Experience of using E-mail and Internet

7 Current Research Project

1. Vector-borne diseases (Dengue) (in progress)
Control of dengue haemorrhagic fever in Pakistan
2. Hepatitis B and C (in progress)
Stability and Optimal Control
3. Cool Energy Project with SCEES and SMME (initial stage)
4. Flooding Modeling (research proposal)

8 Subject taught

1. Applied Dimensional Analysis and Modeling
2. Mathematical Modeling
3. Introduction to Mathematical Biology
4. Computational Mathematics
5. Hydrodynamics & Differential Equations
6. Optimization Theory
7. Differential Equations

9 Student Supervision

1. Samreen Sharif M.Phil CAMP (Degree awarded)
Dissertation title “**Mathematical Models of Infectious Diseases and Role of Optimal Control**”
2. Abid Lashari Ph.D CAMP (Dissertation Submitted)
Dissertation title “**Mathematical Models of Vector Born Disease and Optimal Control**”
3. Muhammad Iltaf Khan M.Phil (Dissertation Submitted)
4. Muhammad Anwer Zeb Ph.D (in Progress)
5. Muhammad Rashad Ph.D (in Progress)
6. Muhammad Shah Zeb Ph.D COMSATS (co-supervise)
7. Roman Ullah Ph.D COMSATS (co-supervise)

10 Research activities

1. Infectious Diseases and Epidemic
2. Predator-Prey Population and Mathematical Modeling
3. Fluid Dynamics (Blood flow in a vessel and mathematical modeling)
4. Optimal Control Theory and Applications
5. Homotopy Perturbation Method

6. Stability Analysis and Computational Modeling

11 Member

1. Korean Mathematical Society (KMS)
2. Society for Industrial and Applied Mathematics (SIAM)
3. Korean Society for Mathematical Biology (KSMB)
4. Korean Society for Industrial and Applied Mathematics (KSIAM)

12 Professional Skills

1. KISAM work shop Seoul National University Summer 2005
2. Pusan-Komamoto work shop on Mathematics in Japan Feb 2007
3. Pusan-Kyung Sang Mathematical Society in June 2007 Korea
4. 6th ICIAM07 in Switzerland
5. ICMB07 in Malaysia
6. KSMB 2nd meeting October 2007 in KAIST Korea
7. KISAM work shop Korea
8. 6th International Conference on SCA June 2008
9. 12th Asian Congress of Fluid Mechanics in KAIST
10. 2008 Global KMS International Conference Jeju

13 Award

1. First Position in Ph.D Course Work
obtained 100% marks PNU South Korea
2. Best Teacher for Spring Semester 2009 NUST Islamabad

14 Work present

1. **Stability Analysis in the Nonlinear Spruce Budworm Population Model**, Pusan-Komamoto work shop on Mathematical analysis and its application 3-4 Feb 2007 Japan.
2. **The blood flow in vessel with compressible diameter approach by an Oldroyd-B fluid**, Pusan-Kyung Sang Mathematical society work shop 2nd June 2007 in Kyung Sang University Pusan, South Korea.
3. **Stability techniques in the SIR epidemic model**, 6th International Congress on Industrial and applied Mathematics 16-20 July 2007, in Zurich Switzerland.
4. **The effect of constant yield harvesting analysis in the spruce budworm population dynamics**, International conference on mathematical biology 4 – 6th, September 2007, Kuala Lumpur Malaysia.
5. **Optimal Vaccination and Treatment in the SIR Model**, in KISAM on 23-24th November 2007, South Korea.
6. **Control in the Smoking Dynamics**, in The 1st Young-Nam Young Mathematician Conference 28-29th March 2008, PNU Korea.
7. **Steady Oldroyd-B fluid in a blood vessel**, the Korean Mathematical Society 25-26th April 2008, Keung Meung University, South Korea.
8. **A Mathematical Study of Human Blood Flow in a Vessel**, Mathematics Colloquium for Junior Mathematicians May second 2008, PNU Korea.
9. **Mathematical Modeling in Biology**, Centre for Advanced Mathematics and Physics 7th July 2008, NUST, Pakistan.
10. **The Influence of the Orientation Stress Tensor on the Blood Flow in a Vessel**, the 12th Asian Congress of Fluid Mechanics 18-21 August 2008, Daejeon, Korea.
11. **Optimal Control of communicable diseases and prevention of epidemics**, Mathematics Colloquium for Junior Mathematicians August 2008, PNU Korea.
12. **Optimal vaccination of communicable diseases**, Global KMS International Conference 2008, Jeju Korea.
13. **Stability and control in a predator population**, International Bhurban Conference on Applied Sciences & Technology, Jan. 2009, Islamabad Pakistan.

14. **Stability and optimal control in epidemic models**, Conference on Recent Advances in Mathematical Methods, Models & Applications, April 18-19th 2009, LUMS Lahore, Pakistan.
15. **Stability and optimal control in epidemic models**, The 10th International Conference on Nonlinear Functional Analysis and Applications July 27-31 2009, Kyungnam University South Korea.
16. **Blood flow in a vessel with numerical simulations**, Intensive Workshop on Mathematical Models in Biology, 21-23th July 2009 South Korea.
17. **Optimal treatment in smoking dynamics**, Conference on Recent Advances in Mathematical Methods, Models & Applications, April 17-18th 2010, LUMS Lahore, Pakistan.
18. **Dynamics of human blood in a vessel and orientation stress tensor**, The International Conference on Frustrated Spins Systems, Cold Atoms, Nanomaterials, July 14-16th 2010, Hanoi, Vietnam.
19. **Dynamical behavior and control of communicable diseases** 24th August 2011, Pusan National University, South Korea.

15 Invited Talk

1. **The Non-Newtonian Blood Flow in Vessel with the Configuration of Brownian Force**, the 25th PNU-POSTECH Algebraic Combinatorics Seminar May 3, 2008, POSTECH Korea.
2. **Stability analysis and optimal control in communicable diseases**, COMSATS, May 4, 2009, Islamabad Pakistan.
3. **Dynamical behavior of infectious disease and role of optimal control theory**, 09 International Workshop on Nonlinear PDE and Applications 29 June- 2 July Pusan National University South Korea.
4. **Some Mathematical Models in Biology** Summer Intensive Lecturers Program for Mathematical Biology 17-20th July Pusan National University South Korea.
5. **Summer School for UG students**, 28 June-2nd July Department of Mathematics PNU, South Korea.
6. **Annual Meeting of Korean Society for Mathematical Biology** ,

Modeling Dynamical Interactions Between Leptospirosis Infected Vector and Human Population, 25-26 August 2011, UNIST South Korea.

1. Total Citation 62
2. Total Impact Factor 14.2230

18 Administrative work

1. **Cheif Proctor** (Present)
University of Malakand
2. Presenter from NUST in the meeting held in Pakistan Engineering Council Islamabad for preparation of Biomedical Engineering program.
3. Meeting with rector NUST and AMC at GHQ to develop research in Biomedical field.
4. Member of advisor committee of the RCMS MS–Ph.D program.
5. Participate the meeting to start B.E Biomedical Engineering in NUST.
6. Member of the technical committee of the 35th International Nathiagali Summer College on Physics & Contemporary Needs.
7. In charge of transport at CAMP.
8. Convener of M.Phil–Ph.D Mathematics program at University of Malakand.

19 Teaching Experience

- 1: Assistant Professor
Department of Mathematics
University of Malakand
Oct 2010——Present
- 2: Assistant Professor (NUST)
December 2008——Oct 2010-.
- 3: Research Associate (Department of Mathematics Pusan National University)
September 2006——November 2008.
- 4: Full time researcher (Institute of Mathematical Sciences, College of Natural Sciences, Pusan National University)
November 2004——November 2006.
- 5: Lecturer (Institute of Mathematical Sciences, College of Natural Sciences, Pusan National University)
March 2000——February 2004.
- 6: Teacher (Private Elem, Middle, High in South Korea) after noon

April 2000——February 2004.
